

CONFIDENTIAL ON-SITE
PAPER SHREDDING

Business Recycling

- With **over 20 years** in the recycling business, Midwest Fiber has a wide range of solutions and **tailored approaches** to address your unique business recycling needs.
- Midwest Fiber is **one of the largest recyclers** of paper, cardboard, Poly-lined bags, kraft bags, super sacks and plastic films in the Midwest.
- Midwest Fiber excels at helping companies meet **green initiatives** and reaching **landfill reduction goals**.
- **Pre-implementation** and **Post-implementation Waste & Recycling Assessments** are available.
- Midwest Fiber has the ability to sell and move materials efficiently all over the globe - giving **YOU** the best value for your material.
- Monthly reporting is provided and customers are sent a summary of volume, grade and pricing information for loads processed within a specified time frame.
- Midwest Fiber coordinates recycling equipment sales and installation.
- Trailers for material storage and transportation are available.
- Employee education and training is provided.
- Process and market **20,000,000 pounds** of recyclables per month.

*"After forming a green team at our organization we hired Midwest Fiber to do a pre-implementation waste and recycling assessment. With their recommendations we quickly implemented a companywide recycling program which **reduced our waste by 50%, saving us money** and they paid us for the recyclables."*
